

Good evening.

I met Lon Eleanor Britter when she was with FC as their Secretary. She consulted with me on reporting and we bonded from that time on.

I found her to be goal oriented and she makes sure that she exhaust her resources to get things done.

She's unafraid to face people.

She makes Big plans. I know that sometimes she gets misunderstood but her process and how she connects with people is different, and I think they're not used to it

Or may they're in awe of her.

We talked, we argue & disagree on some things but we stay in touch.

In this climate of Lionism some people thinks they are the BEST & they think you have to kowtow to them & if not, they work against you.

Inspite of this atmosphere she is just focused on SERVICE to HUMANITY.

Her Big numbers in her reports astounds them that's why we often advised her don't use these numbers.

She has a great partner in Lion Bill who is just focused similarly on one thing

SERVICE. Running for the Office of VDG you as the VOTER should elect one

Who has 'SERVED, have done so much and have made our DISTRICT known like

Having DR OZ during my term as DG, I really appreciate that I wholly supported her in this

Project & later with the addition of DEPEK CHOPRA & Martha STEWART. WHO has done this For our District?

We have Zenni a big supporter who even sponsored the USA/CANADA Forum

She puts our DISTRICT on the MAP big time.

Evaluate her services in number served, the kind of service served and she's still doing it with such regularity at the Samaritan House & when I asked her can you get us BOOSTER shots for Excelsior District she comes through. She's knowledgeable.

She joined the Lion in 2008 & in 2012 started the PSILC after attending the Intl Conv. which got both of them motivated.

In this endeavor, it is a joint responsibility with your PIS, There are stuff that a partner should also perform and they have it.

So..... my fellow lions open your heart, listen to heart.....

And hope that it beats for the right candidate, Lion Eleanor Britter.

Thank you
